

LOWER PAXTON TOWNSHIP GEOCACHING

Launching
Fall 2025

Geocaching is a global, outdoor treasure hunt using GPS-enabled devices. Millions of containers called "caches" are hidden all over the world that you can navigate to via clues and coordinates on your phone. Caches can be super tiny, like the size of a penny, or large, and hidden in plain sight. Some will be easy, and some will require an extra step or code to solve.

HOW TO GEOCACHE

- Visit [Geocaching.com](https://www.geocaching.com) to register a username (basic membership is free).
- Download the Geocaching app to your smartphone.
- Open Geocaching app and navigate to one of the VisitLPT caches near you.
- There you will find the coordinates to locate one of the 12 hidden caches on our VisitLPT Park Tour Passport.
- Record each find on [Geocaching.com](https://www.geocaching.com).
- And when you find a cache, write the secret code on this VisitLPT Park Tour Passport.
- Return each cache to the same spot you found it so the game can continue.

HOW TO REDEEM

After you've located all 12 caches, turn in this completed VisitLPT Park Tour Passport. You can redeem four ways: 1) Submit online at bit.ly/LPTGeocache, 2) Mail passport to the address below, 3) Hand deliver passport to same address and ask for Parks & Rec, 4) Email your passport to email below.
