

# Lower Paxton Township Authority Sewer Replacement Program

**270 Miles of  
Sewer Line**

**4 Pumping Stations**

*transporting waste water to Capital Region  
Water & Swatara Waste Water Treatment  
Plants*

**57 Miles of  
Sewer Line  
Replaced**

**Total Clear Water  
Removed to Date**

**16 Million Gallons**

**8 Million Gallons Remain**

Infiltration and inflow (I&I) of clear water into the sanitary sewer system reduces system capacity during wet weather events and can cause manholes to overflow.

**Total Private Sewers  
Replaced**

**10,463 out of 15,894**

**65%**  
of private  
sewers

**Roads Paved**

**42 Miles**

**30 Miles Remain**

**Total 72 miles**

**26.5% of all Township Roads Paved**

**Program  
Costs**

**\$170,566,000**

**Total Amount Spent to Date  
\$95,429,907**

*Remaining Costs to Complete Program  
through 2033: \$75,136,093*
