

COUNTDOWN 2:DRIVE

*Safe passengers today.
Good drivers tomorrow.*

Countdown2Drive is a web-based program designed to bring parents and young teens ages 13 and 14 together to talk about the key safety issues teens will face when riding as a passenger or as they prepare to drive.

- Teenagers need to be smart, safe passengers before they become good drivers.
- Parents and teens negotiate rules, rewards and consequences to build the trust and respect necessary for safe passenger behavior.
- Teens ages 13 and 14 can build trust and respect with their parents by completing a Countdown2Drive Passenger Agreement.
